WINDOWS & DOORS

# Gorell 5300G Series Windows Make Homes More Comfortable, Energy Efficient and Secure.

## LOWER YOUR ENERGY BILLS.

Gorell 5300G windows are engineered to be sturdy, with a very low expansion and contraction rate—so you won't feel uncomfortable drafts around them in cold weather. In fact, the foam-insulated frame will help to maintain constant temperatures throughout your home, and that means healthier, more comfortable living—and lower home energy costs.

## PROTECT YOUR FAMILY AND HOME.

We build our products especially tough to provide the best possible protection at your home's most vulnerable intruder points. We design our windows so the sashes can't be forced apart—not even with a crowbar—and we even use special locks that keep little fingers from easily operating them. These and other features enable our windows to easily pass all industry forced-entry tests.

## SAVE TIME ON CLEANING AND MAINTENANCE.

You'll find that Gorell's high-quality vinyl needs little or no maintenance, requires less time and effort to clean, and won't chalk like lesser-quality vinyl windows. Our double-hung models tilt in easily and lock in place securely for your safety while cleaning. 5300G Series sliding windows are available in lift-out or Tilt 'N' Slide™ models.

Soft-Lite, window partner with the National Crime Prevention Council, offers intruder-resistant windows.

7-Time winner—National ENERGY STAR® Partner of the Year.

**OUR LIFETIME WARRANTY** protects your investment and our reputation. It guarantees that all moving parts and the hermetically insulated seal in our windows are free from defects in materials or workmanship. It also guarantees that our vinyl colors will remain true for the life of your home. Non-prorated. Transferable. Glass-breakage warranty available.

# Standard Features of 5300G Series Windows

- 1. Expertly engineered, durable vinyl frame with up to 14 structural hollows provides exceptional strength and insulating properties.
- 2. Robotically sealed corners ensure the window stays square and will never require sealants. They also will prevent water and air from entering your home.
- 3. Comfort-Foam™ in the frame significantly improves thermal efficiency.\*
- 4. Automotive-type glazing permanently adheres the glass to the sash, creating a hermetic seal.\*
- 5. Unique ventilation limit latches allow you to let in refreshing breezes without sacrificing safety.
- 6. Gorell's "Constant Force" balance system on double-hung models lets you operate most windows with just the touch of a finger.\*
- 7. Easy-pull tilt latches on double-hung models provide "tilt in" operation on both sashes for simple, easy cleaning.
- 8. Interior designer-approved Soft-White™ or Beige vinyl frames feature a silky smooth, clean surface that will look beautiful for decades. (Optional Light Oak shown.)
- 9. Premium-grade multi-fin weather seals create an airtight seal.
- 10. Classic millwork design provides an elegant look typically associated with handcrafted moldings.

5305G double-hung window in optional Light Oak.

11. Heavy-duty aluminum screen frames feature BetterVue® screen cloth—specially selected to give you 10% better insect protection, 20% more airflow and a clearer view of the outdoors.

12. Heavy-duty cam sweep locks give your windows superior strength and security.

### LIFT-OUT SLIDERS

The 5300G Series family of products also features a lift-out sliding model for homeowners who prefer a traditional style with maximum day-lighting.

5352G Lift Out 2-Lite Slider

### TILT 'N' SLIDE WINDOWS

Tilt 'N' Slide™ hardware allows sashes of sliding windows to conveniently swing in for easy cleaning or full ventilation.

5302G Tilt 'N' Slide

5301G Picture window is also available.

13. Intercept® standard warm-edge spacer and sealant system is designed to maintain seal integrity and resist condensation. Optional upgrade to Super Spacer® metal-free spacer system is available.

14. Insulating foam wrap creates another barrier to eliminate drafts coming through your home's wall cavities.

\* Features not visible in photograph because of their location inside window frame.

### HIGH-PERFORMANCE GLASS SYSTEMS

Gorell offers numerous proprietary, high-performance Low-E glass systems that are designed to provide precisely the level of comfort, thermal performance, security, sound deadening and UV protection you desire. All 5300G Series windows that incorporate one of these high-performance glass systems qualify for the ENERGY STAR® label.

### DECORATIVE GLASS

5300G Series windows with beautiful stained and leaded glass designs allow sunlight to spill fascinating patterns of colors and textures into your home. Gorell also offers glass with exquisite V-grooved patterns and etched glass designs.

Camelot Decorative Glass

Natchez Stained Glass

### SOLARSHINE™

This coating almost makes exterior glass clean itself. A remarkable coating is fused to the exterior of the glass, enabling the sun's rays to actually loosen and break down dirt. The ultra slick coating then, amazingly, washes away dirt and debris when it rains—and dries spot free.

### INTERBLINDS™

Amazing "between-the-glass" blinds provide privacy, shade, comfort and beauty. They are sealed inside the glass panes so they never require cleaning.

### INTERNAL GRIDS

Finely detailed and contoured internal grids give windows the look of traditional divided lites, yet allow for easy window cleaning because they're encapsulated between the glass panes.

## Give Your Home a Unique, Personalized Look.

Gorell offers a myriad of options to allow you to truly custom design windows that meet your unique needs and personal preferences. Choose from various color combinations, decorative glass patterns and much more. A palette of beautiful colors allows you to coordinate or contrast your windows to your home—giving your home an all-new ambiance, inside and out. Choose from Soft-White™, Beige, or numerous interior woodgrain finishes—and from an unlimited array of exterior color options.

#### INTERIOR/EXTERIOR VINYL COLORS

Beige

#### INTERIOR WOODGRAINS

#### SURE-COAT™ EXTERIOR PVC BOND COLORS

Coastal Dune 08	Champagne 10	Sandstone 37	Wedgewood Blue 93	Terratone 53	Forest Green 78	Bronze 21
